ABOUT ME

A graduate of the Islamic University with a major in software development, I specialize in several programming languages and have successfully completed numerous medium and large-scale projects, both independently and as part of programming teams. Currently, I work at a game development company and have gained extensive experience working on freelance websites, contributing to a diverse range of projects.

EDUCATION AND TRAINING

07/2021 – CURRENT Gaza, Autonomous Palestinian Territories

BACHELOR OF SOFTWARE DEVELOPMENT Islamic University

Bachelor's program in Software Development at the Islamic University of Gaza provides comprehensive education in software design and development, with a focus on modern technologies and best practices in programming. The program includes detailed studies in computer science, software engineering, and project management. Through this program, I gained skills in various programming languages, databases, and web and mobile application development, with an emphasis on developing innovative software solutions and system analysis. Practical skills were further enhanced through graduation projects and field training.

Level in EQF EQF level 4

WORK EXPERIENCE

01/2020 – 10/2022 GAZA, Autonomous Palestinian Territories

GAMING DEVELOPMENT MANAGER XHUB COMPANY

- Contributed to the development and implementation of various game projects in collaboration with a team of designers and programmers.
- My role involved designing and developing game mechanics, programming AI for characters, and optimizing game performance.
- Worked with popular game engines like Unity, and followed Agile methodologies to manage the development process and ensure the timely delivery of high-quality projects.

09/2023 – 10/2023 Yemen

BACK-END WEB PROGRAMMER CLIENT VIA FREELANCE WEBSITE (MOSTAQEL)

- I worked on programming websites and worked on other projects to maintain and improve some websites.

10/2023 – 12/2023 Saudi Arabia

SOFTWARE DEVELOPMENT TEAM ADMINISTRATOR CLIENT VIA FREELANCE WEBSITE (MOSTAQEL)

Software Development Team Administrator

Managed and coordinated the activities of a software development team, ensuring efficient project execution and collaboration. Acted as the liaison between developers, project managers, and other stakeholders, overseeing task assignments, timelines, and progress tracking. Monitored team performance, resolved conflicts, and facilitated communication to maintain productivity. Ensured adherence to development processes and best practices, contributing to the successful and timely completion of software projects.

09/2024 – CURRENT Saudi Arabia
GAME DEVELOPER AL HARBI STUDIO - SAUDI ARABIA

- Designed, developed, and programmed engaging and interactive games across the company.
- Implemented gameplay mechanics, user interfaces, and performance improvements for a seamless user experience.
- Collaborated with designers, artists, and other developers on the team to bring game concepts to life.
- Fixed bugs and resolved technical issues to ensure high quality.
- Regularly updated games with new features, levels, and improvements based on user feedback.

SOFTWARE DEVELOPER

Technical Support Specialist (Java and Front-End Web)

Provided expert technical support for Java-based applications and front-end web technologies, including HTML, CSS, and JavaScript. Diagnosed and resolved software issues, implemented bug fixes, and optimized code performance. Assisted clients and team members in troubleshooting and maintaining seamless functionality across web interfaces, ensuring user satisfaction and system reliability

● **CONFERENCES AND SEMINARS**

01/2021 – 04/2021 Gaza
Programming Languages Mastery Course

Write here the description...Comprehensive course focused on mastering multiple programming languages, including their syntax, core concepts, and practical applications. Covered advanced topics such as object-oriented programming, data structures, algorithms, and software development best practices, enabling efficient problem-solving and versatile coding skills.

02/2022 – 12/2022 Gaza
Game Programming Course with Famous Game Developer Osama Al-Deeb

Specialized course covering the fundamentals and advanced techniques of game development, including gameplay mechanics, physics simulation, AI behavior, and graphics rendering. Gained hands-on experience with game engines like Unity/Unreal, scripting languages, and optimization strategies to create engaging and high-performance games.

06/2022 – 12/2022 Gaza
Dive into Data Structure Concepts

In-depth course focused on understanding and implementing fundamental data structures (arrays, linked lists, trees, graphs, etc.) and algorithms (sorting, searching, dynamic programming, etc.). Emphasized efficient problem-solving, algorithmic thinking, and optimizing code for performance in real-world applications.

05/2024 – 07/2024 An-Najah National University
Advanced Software Engineering

Comprehensive course covering advanced topics in software development, including design patterns, software architecture, testing methodologies, and system scalability. Focused on modern development practices, agile methodologies, and creating robust, maintainable, and high-performance software solutions.

● **DIGITAL SKILLS**

PROFICIENCY IN PROGRAMMING LANGUAGES: Java, C++, C | GAME PROGRAMMING ON UNITY ENGINE | BACK-END WEB PROGRAMMING | COMPUTER AND MOBILE APPLICATION PROGRAMMING AND DE | MANAGING SOFTWARE PROJECTS AND DEALING WITH TEAMS | SYSTEMS DESIGN, SOFTWARE TESTING AND SYSTEMS ANALY | DATABASE ADMINISTRATION AND DESIGN: SQL, MySQL, Po
Web framework (front-end and back-end) Laravel - Node.js (Express.js, Fastify, NestJS) -Spring Boot - ASP.NET Core -React.js - Angular - Svelte - Next.js (the level of experience varies in each framework)

● **LANGUAGE SKILLS**

Mother tongue(s): **ARABIC**

Other language(s): **ENGLISH**
